UNION CEMETERY

Research by John A. Shaw So.Carver, Mass. 1996 - 1997

I have separated the cemetery into sections for convenience and assigned each lot with my own numbers for record keeping.

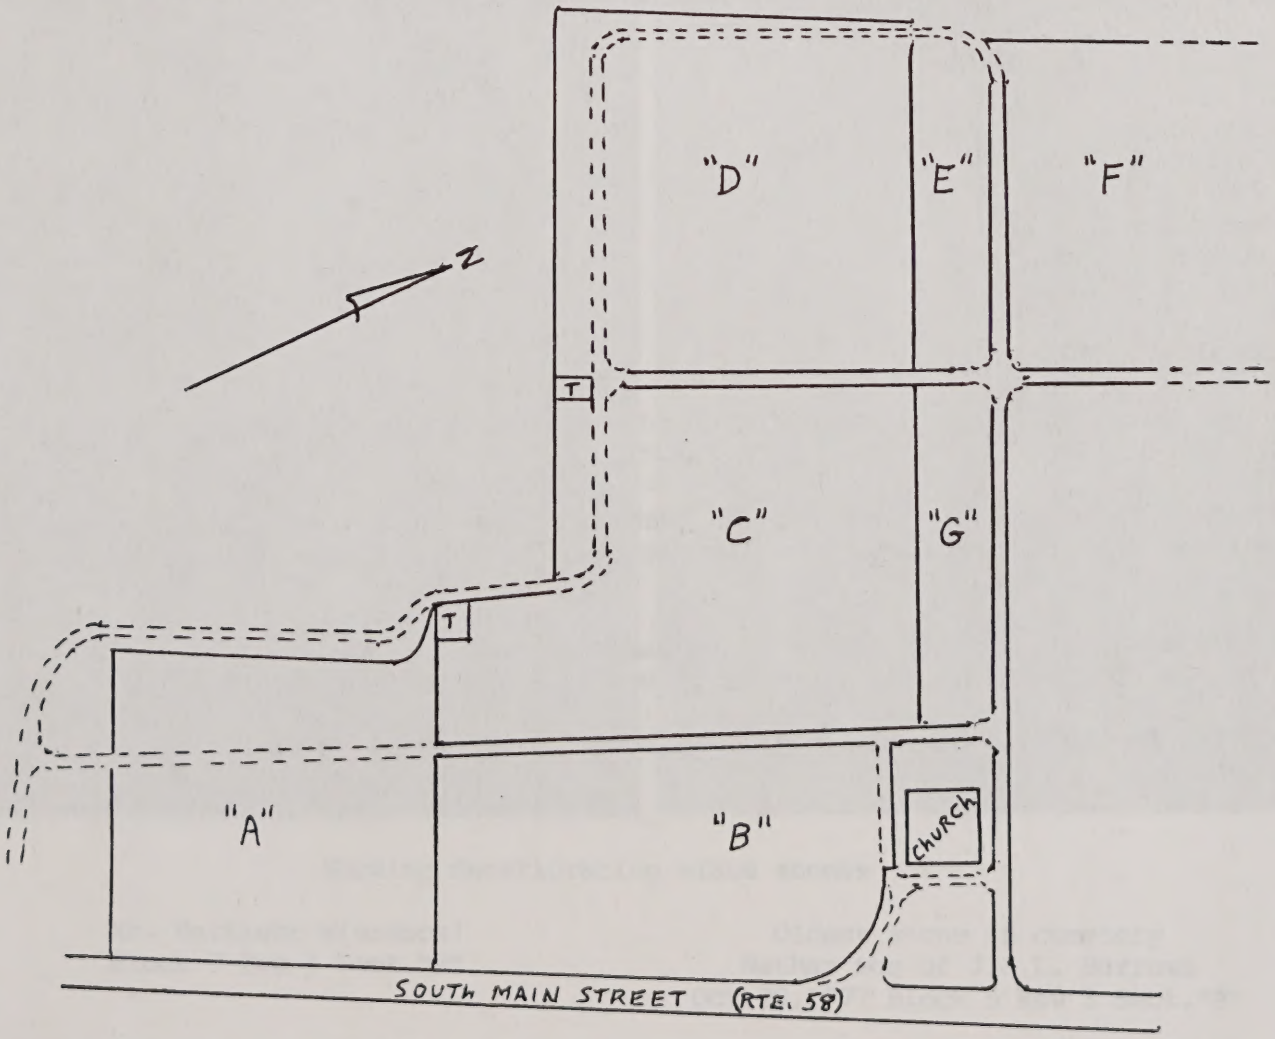
The sections are located as shown on the key map below.

SECTION "A" The most southerly section.
SECTION "B" The oldest section along South Main Street and by the church.
SECTION "C" The central section between the two cross drives.
SECTION "D" The most westerly section at the rear.
SECTION "E" A new section to the north of section "D".
SECTION "F" The newest section to the north of section "E"
SECTION "G" Future section to the north of section "C".

I entered all information into two types of indexes:

The first index is by sections listing all info from each stone on each lot.

The second index combines all sections with names listed in alphabetical order and with reference to where that name can be found by the section and lot number and includes dates of birth and death and marital status if known. A section plan showing the lots by number accompanies each index.
A supplement to this index may be found following page 57. This supplement consists of a list of burials first marked by a clay cylindrical marker prior to headstones being installed and includes burials at locations now unknown.



I started this research in November 1996 and finished in April 1997.

I have lived all my life across the street from the cemetery and when my father, Ernest W. Shaw was Cemetery Commissioner during the 1930's, I used to earn the goodly sum of twenty five cents per hour clipping grass around the head stones.

There are 127 Shaw's buried in this cemetery including a good many of my relatives which go back six generations to my great great great great grandfather Lt. John Shaw. He was born in 1726 and died in 1802.

There were two reasons why I attempted to do this project:

The first was more of a sentimental reason in that the older stones were deteriorating to the point where it was very difficult to read all the wording and I felt that in another fifty to one hundred years the information would be lost forever.

I found at least six slate markers which were impossible to obtain any information from and is an example of a bit of history lost never to return.

The second was that I thought it would be beneficial to have a complete listing of all the names in the entire cemetery while they were available as no list existed to my knowledge.

I have listed the total of the most common names found:

Shaw	127	names
Atwood	101	"
Murdock	61	"
Griffith	61	"
Shurtleff	44	'
Washburn	43	"
Bumpus	41	"
McFarlin	39	"
Barrows	30	"
Ellis	21	"

On the following pages I have indicated letters, words or numbers that I could not decipher by: "...", ".?.", "---" or "-?-".

The earliest burial I found was of "Nathan", the four months old son of Jonathan and Lydia Barrows, who died Oct.20,1777. His stone is located in Row 3, Block 5, Section "B".

The earliest birth I found was a Peleg Barrows, born in 1708 and died in 1803 at the age of 95 years. His stone is in Row 1, Block 5, Section "B".

There may be others, possibly on the six deteriorated slate markers.

HISTORY OF UNION CEMETERY

Transfer from private ownership to public ownership
Research by John A. Shaw December 1997

It appears that at one time (late 1700's or early 1800's) what is now known as the Union Cemetery was originally owned and controlled by proprietorship and was referred to as the "South Carver Cemetery" or "South Burial Ground".
See Carver Town Clerks vital records for 1855 & 1866:

Casey, Thomas 1/3/1855- laborer, Bachelor, aged 25 South Carver Cemetery.
Casey, William 4/13/1856 male, age 22, laborer South Burial Ground.

I believe the original burial ground consisted of only Section "B" as appears on page "I"

As of this date, I have not found the deed of ownership for this "Older Section."

The cemetery was enlarged from time to time and I have listed the following deeds for the Portions of it I was able to find:

Ellen B. Barrows to Henry S. Griffith in Trust for the public, for a cemetery forever Lying near Union Church---dated May 10, 1906 but not recorded in the Registry of Deeds until May 21, 1927 in Bk. 1526, Pg. 578.

Henry S. Griffith Trustee to Union Cemetery---a certain parcel---containing about 190 square rods and adjoining the old section of Union Cemetery----dated Aug.8, 1927 and recorded in Bk. 1538, Pg. 22.

Union Cemetery of South Carver, Inc. to---Town of Carver dated Feb.23, 1951 and recorded in Bk. 2152, Pg. 305.

John B. Bradshaw and David N. Bradshaw to Town of Carver (two parcels) *dated Sept. 25, 1978 and recorded in Bk. 4575, Pg. 234*

I have attached a tracing from the Carver Assessors map as they show the present ownership of the cemetery.
The first record of any meetings I found was when the proprietors met to consider incorporating:

The proprietors of the Union Cemetery met in the Union Church Oct.31, A.D.1908.
Proprietors present:
Marcus Atwood, Josiah W. Atwood, S.D. Atwood, Alfred M. Shaw, Henry S. Griffith & John Bent.
Alfred M. Shaw was elected Chairman and S. D. Atwood was elected Clerk.

"Voted that the proprietors proceed to organize a Cemetery Corporation in accorddance with Chapter 78 of the revised laws of the Commonwealth of Massachusetts.
Voted that the name of the Corporation be the "Union Cemetery of South Carver."

A code of by laws was voted and a "Certificate of Organization" was filed with the Commonwealth of Massachusetts Nov.23, 1908. (Copies attached)

The first annual meeting of the Union Cemetery Corporation was held Oct.30, 1909 at The Union church and adjourned to the Marcus Atwood house. (Other than electing officers, no other votes or actions were taken)

The following, as they became a member of the corporation, personally signed their Names in the record book: (not in order by date of membership)

The corporation elected a "Collections Officer" through the years whose duty was to Contact all lot owners that could be traced and bill them annually for upkeep of their Lots. For instance, the Executive Committee at a meeting Oct.31, 1936 decided the Yearly charge for maintenance would be:

Native grass —— 2.00
Fenced lots —— 6.00

Some of the owners had funds deposited for the perpetual care and upkeep of their lots, such as:

UNION CEMETERY Section "B" (oldest section)
Blocks 1 thru 18

Research by John A. Shaw So. Carver Nov.1,1996 thru Mar.21,1997

Whereas the individual lots (with the exception of two) are not evident on the ground, this section has been split into blocks as shown on the plan. I assigned a number to each block for reference to grave marker locations. The plan is not to an exact scale but more of a schematic to help locate a particular location. The iron fence sections are approximately to scale as are the lot locations on the outside of the perimeter of this section ("B").

The last name of a particular family is shown on each numbered block in it's approximate location. The grave markers are more or less in rows running parallel to the fence and So. Main St. The rows of markers, starting at the street side start over in each block with 1st and 2nd rows etc. and the stones are listed from left to right facing away from the street.

EXAMPLE 1: To find the location of Almira S. Atwood listed as "Block 2 Row 3 Sect."B" you would align yourself with the 4th iron fence post at the street (counting from left to right) and the center of the Ellis lot (across the main driveway), then in that line walk to a point opposite the division line of the Tillson and Perkins lots (on the left of the plan) and in line with the main part of the church, then count three rows of markers towards the main driveway and the Atwood stone will be in that immediate vicinity.

EXAMPLE 2: To find Thomas Barrows listed as "Block 5 row 2 Sect."B", you would locate yourself between the 7th and 8th iron fence posts (counting from left to right) and go to the 2nd row towards the main driveway and find him amoung the Barrows markers.

Markers are listed row by row and from left to right in each block facing the main drive.

The symbol "Æ " on a marker is typed AE and = age.

An asterisk "*" preceding a name indicates that person was previously listed in a book published by Friends of the Middleborough Public Library, Inc. 1995. entitled "Old Cemeteries of Southeastern Massachusetts." This book contains 221 entries for the Union Cemetery and was an excellent cross check against my listings and in particular with the number "4"which can easily be mistaken for the number "1" in the old style of engraving. That publication transcribed a manuscript compiled by Charles M.Thatcher in the mid 1800's. I did find however, what I believe to be 13 errors in the listing by Thatcher for this old section of the cemetery.
The above publication also lists 25 additional names that either were not readable on some of the old slate markers or the markers no longer exist today. See Page 18 of this section for these names. They are not included in my alphabetical index.

Supplemental to Block 5 Row 1 **"CASEY"**

Carver vital records list three Casey's buried in the "South Burial Ground"/ "South Carver Cemetery".

The Native American burial custom was to have one head stone and a foot stone consisting of local field stone with no inscriptions marking the grave site.

Whereas this is the only field stone with no markings in the cemetery, I believe it marks the burial of one of the Casey's as quoted from the Carver Vital Records as follows:

CASEY (sic) **Thomas**	1/3/1855	laborer, bachelor, aged 25, South Carver Cemetery
CASEY, William *(colored)	4/13/1856	male, age 22, laborer, South Burial Ground
CASEY, Joseph *(colored)	10/17/1867	male, single, 24 years, mechanic South Carver Cemetery

* = Years ago it seemed to be the custom to list Native Americans as "colored" in the record books.

Alphabetical listing for all sections

NOTE: An asterisk "*" before a name indicates that person was also listed in a compilation of records by Charles M. Thatcher in the early 1880's and published by: Friends of the Middleborough Public Library, Inc. 1995. See page 18 of Sect."B" for 35 additional names from that publication that are not included in this index whereas some markers were unreadable and others evidently destroyed or missing since Thatcher's research some one hundred fifty years ago.
A blank under date of death would mean the person was still living at the time of this listing or the date never got inscribed after that persons death.

UNION CEMETERY

SUPPLEMENTAL TO ALPHABETICAL LISTING FOR UNMARKED BURIALS

The following list of names and numbers were copied from a booklet in the possession of Mrs. Ernest W. Shaw by John A. Shaw (son) on Jan.26,1966:

Whereas this appears to be 2nd, 3rd or 4th hand information, I cannot vouch for it's authenticity.

I copied this information 31 years ago and my recollection of doing so is hazy to say the least. The following two sentences are probably my own notes for which I had hoped to fill in the blanks.

According to Mr. Bernard E. Shaw, he and ----?---- obtained cylindrical clay markers that were numbered and on or about 19--?--- with the help of an "old timer" --?--- Swift, who had personal knowledge of many burials, placed these markers at each unmarked grave for record purposes.

On or about 19-?- many or all of these markers were pulled out of their grave sites and stacked along the stone wall thereby making the attached list valueless unless an old sketch or plan can be turned up that would show where these markers were originally installed.

The reason for the check marks after a name are not known but might possibly indicate the names checked off when permanent grave stones installed and the numbered markers removed to be reused.

An asterisk "*" prior to a name indicates that name or similar name found: on grave stones by me during my 1996/1997 research & listing of all the graves, or: found on 1927 plan showing last name only on lots with no markers.

Comments in italics were added by me at this writing, and the following words are used to describe what I feel the answer or location might be:

"Possibly": Names don't quite match but "might" be one and the same.
"Probably": Names phonetically spelled or middle initial missing but appear to match known locations.

The lot numbers and sections are added where that marker can be found.

If a name was definitely found by me on a grave stone, I make no comment, but refer to the lot and section of burial.

If there is no comment or lot location after a name it indicates the location of burial of that person is unknown.

NOTE: For alphabetical listing of names & numbers only to see if a name is of interest, turn to page 4 of this supplement.

The following notes copied verbatim:
